- Students must have placed into developmental math to qualify
- There is no cost to participate other than the student's time and effort
- Information Link: <https://crimsonconnection.nmsu.edu/organization/aggiejumpstart>

Program Description

The Aggie Jumpstart Program is designed to assist students to prepare for success in college level math and English. The four-week program will encompass an intensive skills enhancement program for first-time freshmen. NMSU faculty will provide instruction to augment student academic preparedness for the math and English courses. The program is also designed to acclimate students to the New Mexico State University campus through a cohort model that will provide students with a co-curricular and residential based experience. Students will participate in co-curricular activities such as leadership development, career development, college life and academic success skills that are designed for student success. The twenty selected students will also have the opportunity to earn college credit in the Fall 2022 semester by taking the ARSC 1120 course with their fellow Aggie Jumpstart cohort. In addition, students will be able to participate in social activities in and around Las Cruces that will strengthen their support network among their peers. Aggie Jumpstart students will have the opportunity to participate in programming throughout the 2022-2023 academic year through a specially designed course (ARSC 1120) facilitated by the College of Arts and Sciences and the Student Success Center.

Student Talking Points
