

October 2023 Data Tools Feedback

Navigate for Advisors

| Are you likely to use Navigate in the future? | How can we make Navigate more useful to you in your job? | Do you have any other comments to share? |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Yes | I see some students unfamiliar with the system. I think more training and promotion targeting students could help as well as faculty members' | Thank you. |
| Yes | The success indicators look like they would be the most helpful. Campaigns designed for different types will be great. | I would like more training as it is available. A deep dive into specific topics such as the ones I mentioned and others like being able to notify the tutoring team or others of a student's needs. |
| Yes | I will be an administrator for Navigate and helping to set up the Graduate portion of the platform. | Thank you for the training opportunity. |
| Yes | All of the information will assist my group as we start assisting Rosa with tech support. | |
| Yes | Take the time to demonstrate more features in detail. | I think there was too much information on the slides and Mr. Mustard was kind of on automatic pilot. It would have been good to have more discussion. |
| Yes | The planning aspect will better help me to guide my students and ensure that all opportunities are made available to them. | This was a great and thought provoking how Navigate can better work for me and my students. |

Navigate for Care Units

| Are you likely to use Navigate in the future? | How can we make Navigate more useful to you in your job? | Do you have any other comments to share? |
|-----------------------------------------------|---------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Yes | I will be a Navigate administrator and help build the Graduate portion in the platform. | Thank you for this training opportunity. |
| Yes | This information will assist my team and I as we start to buildout the Graduate care units. | |
| Yes | Needed to have more campus partners there and have a more robust discussion. | I think there was too much information on the slides and Mr. Mustard was kind of on automatic pilot. It would have been good to have more discussion. |

Using Navigate to assess retention efforts

| Are you likely to use Navigate in the future? | How can we make Navigate more useful to you in your job? | Do you have any other comments to share? |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Yes | | |
| Yes | I think it would be nice to have workshops where we can come in and receive guidance on how to look up and interpret analytics/lists, and network with others to learn how our colleagues are using the tool. | It was very helpful having Dr. Scott show us an example of how to use the new analytics tool, thank you! |
| Yes | I will be a Navigate administrator and help build the Graduate portion in the platform. | Thank you for this training opportunity. |

Analytics Dashboard Feedback April 26, 2024

| Did you find this workshop effective/helpful? | Does this tool do what you want it to? Why or why not | Will you be using this tool to help inform your decisions when guiding students through programs? | Are there any other NMSU data tools you would like to explore more in a workshop in the future? |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Yes | It does because it has excellent flexibility and can be molded to meet the needs of NMSU. | Yes | I'd like to hear more about Slate data and how NMSU can interact with prospective students. |
| Yes | Yes, the academic dashboards provide great institutional assistance. | Yes | |
| Yes | I can see that Analytics is a robust tool that can do a lot for me, but I am still concerned the learning curve is too steep for me to be comfortable using this on my own. It was good to find out today how we can request help in learning to access data, at least until we get better at learning to use the tools ourselves. | Maybe | Yes, I have much to learn about all NMSU data tools. |
| Yes | Yes, it was provided some very exciting advances in information that is useful for everyone involved directly with students. | Maybe | Any tools provide data related to budget management and transactional financial information in NMSU Analytics. |
| Yes | yes, it provides a quick overall view for certain inquiries | Maybe | |
| Yes | Not sure, I don't have access | Maybe | Still too new to my position; not sure what tools with be helpful yet. |
| Yes | Maybe, the tool is not very user-friendly, so it may do what I need it to do, but I just don't know how to get the data I need. Therefore, I attended the workshop. | Yes | Banner |

Syncing your Calendar Feedback May 10, 2024

| Did you find this workshop effective/helpful? | Did this workshop increase your understanding of ways to effectively use Navigate360? How or how not? | Will you be able to use the information provided to assist in guiding students through programs and services? | Are there other NMSU data tools that you would like explore more in the future? | Any additional comments you would like to share with us? |
|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| Yes | The workshop went over a lot of very useful information about Navigate 360. The times and other information and advanced search. | Yes | I would like to get more information about Slate and Analytics. | Only place for improvement was the start with the video and lack of screen sharing. |
| Yes | Yes, I am a new employee so the workshop helped give me an idea of the functionality and uses of Navigate 360 | Yes | Still too new to know what those data tools might be. :) | |

Yes

Yes, very helpful presentation
and I appreciated having the
real-time walk-through

Yes

Kelsey was great! Thank
you so much!
